

Factory Training 2025

Elevate Your Skills with Hands-On Experience

Discover Diode LED products firsthand through our exclusive factory training. Held at our headquarters in Reno, Nevada, this immersive program provides direct access to our expert team and an in-depth look at our cutting-edge lighting solutions. With both Standard/Intermediate and Advanced training options, you can select the level that aligns with your expertise.

What You'll Learn

- Installation techniques, troubleshooting, and system integration
- Insights into product features, performance, and best practices
- Ways to stay competitive, enhance skills, and gain confidence in specifying, installing, and maintaining Diode LED products

What's Included?

- Hotel Stay in Reno, NV
- Transportation to/from hotel, corporate office, training, and social events
- Meals on training day with a fun social activity
- Tools, samples, and promotional items
